

BONALDO

Rigoletto

Designer: **Paolo Grasselli**

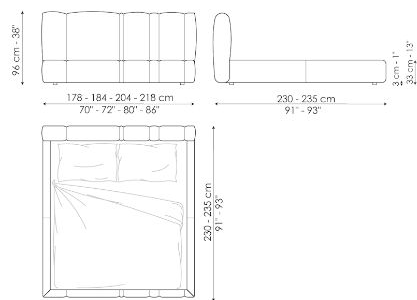

Rigoletto emerged from the idea of making the image of the upholstered bed captivating and innovative, without sacrificing its traditional formal cleanliness. The headboard features a series of vertical sections of various widths which convey the illusion of a surface that ideally tends towards

infinity at the sides. This subtle geometric suggestion is obtained through the sequence of vertical finishing elements which are sewn using a particular binding and quilting technique. The upholstery, only available in fabric, is completely removable.
